## PA 1 image

```
[Running] python -u "d:\simulator_templates\ecosystem_tester.py"
```

```
Initializing Ecosystem
Initial number of bears: 2
Initial number of fish: 4
Bear assigned to position 2
Bear assigned to position 7
Fish assigned to position 8
Fish assigned to position 4
Fish assigned to position 9
Fish assigned to position 6
```

```
Ecosystem BEFORE simulation
None
None
Bear at location 2
None
Fish at location 4
None
Fish at location 6
Bear at location 7
Fish at location 8
Fish at location 9
```

```
***** Iteration 1 *****
Processing Animal at location 2
    It says: Roarrrrrrr!

Processing Animal at location 4
    It says: *Silence...*
Processing Animal at location 6
    It says: *Silence...*
Processing Animal at location 7
    It says: Roarrrrrrr!

Processing Animal at location 8
    It says: *Silence...*

Processing Animal at location 9
    It says: *Silence...*
```

```
Ecosystem AFTER simulation
None
None
Bear at location 8
None
Fish at location 4
None
Fish at location 6
Bear at location 8
Fish at location 5
Fish at location 9
```

```
[Done] exited with code=0 in 5.381 seconds
